My son has been obsessed with Jurassic world and Jurassic park. I found this book and thought it would be great for him. It's definitely a book for a more advanced reader, so I read it to him and he loves it. It has a bunch of fun interactive cards in the back. Love the fun answers and stories that my son comes up with when we read the questions.

My nephew loved this book (it was a Birthday present) He loves Jurassic world and reading. He informed me it is what he would be reading that night before bed.

Ordered for my 5 year old grandson who's a dinosaur lover and he is thrilled . I like how the book gives a nice description and helps with pronouncing names.

My grandson has become interested in dinosaurs again, especially now that he can read on his own. I purchased several of the books from the series.

My 8 yr old absolutely loves this!! He devoured all of the information about the dinosaurs and thought the pictures were great!

I let my 5 year old rate it. We borrowed this book from the library but because of the cards in the back he really wanted it!

Son enjoys it. It is way below his level at 3rd grade but he loves all things Jurassic Park so it worked well.

My 4 yr old is obsessed with all things dinosaurs and loves this book. The pictures are vivid and life like.
