## Customer Reviews

My children love the people you can build with Legos and are having a great time flipping through here and looking at the different Harry Potter characters. I was worried it might lead to a lot of requests to buy more, but so far they just flip through and read about them and find the few that we have.

My sons love reading and looking at the pictures in this book. They periodically go back to this book to look at the pictures or read the text. It's a book that doesn't collect dust on the shelf.

Great Lego character encyclopedia. My son has the Star Wars one as well and loves them both. takes them out frequently to peruse. If you or your child are huge Lego fans, this book is great. Gives information on each Lego figure such as what sets they are included in and what (if any) unique pieces that figure has.

My 6 yr old daughter is a huge HP fan. She watches the movies, plays the trivia games and also plays the Lego HP on the Wii. This book was a great surprise for her. She lies in bed and flips through it often.

My son is Harry Potter fan. So anything carries Harry Potter label has to be in a house. Especially if it is a book. So this book was nice addition to our Harry Potter as well as LEGO collection of books

My 9 year old son loves HP and this book like most lego books made him very happy. He earned this book by being kind to his sisters so it was extra special. He enjoys looking at the wonderful pictures of his favorite characters. Lego always does a wonderful job and my son compares the characters in the book with his video game and the books. He has spent hours pouring over the pages.

Length: 0:50 Mins

This book contains useful images and descriptions of Lego Harry Potter minifigures. It is divided by year (Year 1 The Sorcerer's Stone to Year 7 The Deathly Hallows). It includes a helpful Index of Erised (my phase, not theirs) to help you find the figure you are most looking for. I put together a short pictorial video highlighting some of the key features of this book. It should give you a great idea of what's included, and I hope you find it helpful.

My son was looking to buy this at a school book fair, but we found it here for almost half the price. He likes it...
