Customer Reviews

I have loved this book since I was 13 and read it to my nephew. Now I'm a mom and enjoy reading it to my child. As a preschool teacher I intend to buy this book for school too. Have You Seen the Crocodile?: Read and Share (Reading and Math Together)

The book was brand new as stated, packaged well and arrived in a reasonable amount of time-to australia. I have an original of this book that was published by Walker books. I especially liked the front and back sleeve with the frogs and lilly pads, it was a bit of a 'find the frog game' each time we read the story. This edition published by Candlewick Press does not have the lilly pad pages, the book is unchanged and a really GREAT STORY-but I miss the lilly pads from Walker books publishers.
