Just a wonderful set of cartoon cat pictures for casual coloring. The double book means lots to choose from, and the illustrations are all excellent. This would be a good book for children, but it's also a fun breath of fresh air for serious colorists. (I also had two different professional artists borrow it from me for source material.) I'm not a cat person, but I couldn't resist. If you use the Search Inside this Book feature, you'll see why! The paper quality isn't the best, but it's far from the worst I've seen, especially considering the price. The backsides of the pages are blanks, and while there is no perforation, it's very easy to cut a page out. If you like the looks of this book, check out the related titles. I have a few others from the same publisher. Adorable Animals pops into mind immediately. They're all fun, and can be easy or challenging, depending on how you choose to approach them.

This book is just as it says: Incredibly Cute Cats. I have already colored in three pages and I am happy with the results. This is a great book for any age. There are some pages with easy-to-color basic designs, some with scattered pictures, and others take up the entire page with patterns or random things to do with cats. I was pleased with the drawings. The designs are all one sided so you can use crayons, pencils, markers, or water colors without worrying about bleed through. I am really pleased and now I want all of the books in this series.

Wide variety of designs. Also purchased Vol. 3-4 combo book. All sorts of fun pictures.

Love this adorable cat coloring book. It will be hours of fun to color :)

Fun pictures to color!!!!!!
