The World Of Turtles (Dover Nature Coloring Book)

Synopsis

By land or by sea, these turtles make coloring fun! Come and explore every facet of a turtle's world in a coloring book unlike anything you've ever seen. This collection of 30 beautifully rendered images presents a variety of species in their habitats around the globe: the Australian pig-nosed, Galapagos, green sea turtle, Egyptian, red belly, and others. The turtle's prehistory, skeleton, and stages of its life cycle are illustrated as well.

Customer Reviews

My sister is obsessed with turtles and she is in love with this. The minute she saw it she couldn't wait to color it. It has a lot of info on turtles as well, and goes through the whole history of them. It's very neat and educational.

Great coloring book that focuses entirely on turtles. Educational, as it has info about the history of turtles, turtles as pets, and about each species. I would not recommend this for kids younger than 10 years old. The drawings are quite intricate and take some time to do.

This a wonderful coloring book for the young and the older crowd, especially if you are looking for something that does not require a lot of thought. Mix and match parts of different pages or just color

as they appear in the book. This coloring book offers just enough detail without going overboard.

My daughter is currently interested in turtles, and got this as a prize for getting straight A's. She has not colored in it, she prefers to just read about the turtles. Even I found the information on the turtles interesting. Fun and educational in one.
