This is a great activity book that kept my kids busy for hours, when they loved looking at books but were too young to read. It sets out on each double-page spread the items you have to look for (5 scrolls, 10 magic wands, 3 goblets, etc.). It's easier than "Where's Waldo?" but perfect for ages 4 - 6. Very engaging! I used to bring them along to doctor's appointments, long car trips and airplane rides.Great Kid Books[...]

Bought this book for my daughter's 5th birthay and she loves it. We have been through the book a couple of times and she is still enjoying it, we still have to search for the items. Some look and find books become too easy once you find the items the first time, but these are challenging for my daughter every time we read it. I am going to buy her more of these books for Christmas.

My 5 year old granddaughter and I love to share this book. Our imaginations run wild as we make up stories to go along with the page. What fun. The illustrations are great!

I have grand daughters aged 4 and 2. This is their reading choice for the potty!! it has made potty training fun!

My child is in love with thise series and so am I . My daughter is 3 and this has helped her with number recognition and counting.
