Customer Reviews

I found the farm words version of this first, but this set is much more helpful, as the words are less specific and therefore more useful to parents and children trying to practice their Spanish daily.

Otherwise, the same review for both sets applies:As a Spanish teacher, I recognize that presenting a second language in various forms and through many activities is a must! These flashcards are colorful and extremely helpful. Add them to your Spanish curriculum, and you'll be pleased with how much your child retains! A great way to do many things: introduce, practice, reinforce, and even reward second language acquisition.The only problem I see with this set is that the Spanish is listed on both sides - so if your child is able to read, you'll have trouble "quizzing" him. This set is best for younger children that don't read yet. I also wish they had a phonetic pronunciation guide for the non-Spanish speaking parents.You can find games and pronunciation on the website for the Flip Flop Spanish Workbook

This is a good way to teach toddlers and pre-schoolers the basic spanish words..
