Customer Reviews

It is a great book it has a family section, friends, school, you, and you today section. And at the end is a little envelope to put your top secret stuff. You have blank spots where you can write what ever you want or there is something that says to write about. i would recommend this to any kid who likes to write down things and in like 20 years read it over and see how you changed!

This book is great! I liked it a lot! There is lots of things to fill out, and questions you might not normally think of. It is very fun. I would definitely recomend it to someone!
