Customer Reviews

bought two of the harmonicas and am very pleased. Includes short chord instruction and makes it easy to play. The price is so reasonable that I can't believe sells it so cheaply. Great buy!!

I searched the local stores and could find nothing for children starting to learn the harmonica. This book is great without being too juvenile.

This is really written for children. The instructions are easy to follow. I got this to accompany Harmonica DVD for ultimate beginner.

This was a gift, along with the harmonica, for a 10 year old child. I'll be surprised if he uses it as it appears to be kind of difficult for a child unless they are working with an instructor.

It doesn't look like a book written for children. The lessons are superficial and hard to be followed, and the book is too short.

Great instructions which makes it easier to understand this instrument. I am an adult, so appreciated the baby steps.
