Customer Reviews

Everything Goes books are always fun and full of color and objects to look at. This early shared reading book is all that and perfect for the early reader that also has an early enjoyment of a bicycle in Henry on Wheels. The text has plenty of repetition which helps brings certain words to memory and it is neat as he goes around a corner of her neighborhood block to the next thing to see which makes me think his could be a fun book for discussing sequencing. At this stage for us (3.5) often I read and I will find her at a later time "reading" or rather retelling the story to herself of what she remembers. Today was different as I went very slowly and pointed at each word. To the handful or more words she definitely knows I mist pointed and let her read them. Others I said the word while pointing at it and she repeated after me. This worked really well and at the end she still went on to "read" it to herself and as more words repeated she recognized hem and didn't need me to say it first. One more step to reading success fulfilled in a fun way! Thanks to HC. Typed on Kindle Fire. I received this product free for the purpose of reviewing it. I received no other compensation for this

my 2 1/2 year old grandson particularly liked the construction site because he had experienced a cement mixer come to his home. Really age appropriate.

For kids starting to read its an excellent book in the series of adventures about Henry! My first grader can read it already!

Great little book for a little one. Easy to read to a child or for a child to read on his own....

Cute book and perfect for my 3 year old who is learning his sight words.
