Customer Reviews

This was purchased for my son's 7th birthday. He's very much into fighter planes and pictures of them. This book has great pictures of the aircrafts and great information. He carries it with him wherever we go just so he can look through the pictures over and over again. Great book!!

Great book for a youngster interested in planes. I bought this for my 11 year old son and he LOVES it.

not what i expected but my son still enjoyed it. i was expecting something a bit more matched to his reading level (the book is supposed to be for teens) but found it to be closer to what he was reading in the first or second grades. still, i gave the item a "4" due to the fact that he liked the facts in it and had good readability.
