## Customer Reviews

My 4 year old grandson loves Thomas the Tank Engine and anything to do with trains. I bought this sticker for his 2 year old brother because I had bought two other train sticker books for him. He could not be torn away from this book as well so I had to order another one for his brother. Now he has both. The brother decided to concentrate on softball.

For the price, this is a fun little book. It won't last forever, in fact, it may only last 5 or so uses, but it handy to keep in my purse for restaurant outings, plane rides, etc. There are a lot of stickers--almost too many to fit on the page/board, but it has kept my train-loving toddler entertained during a few outings.

Bought these to keep my 2 year old occupied on an airplane ride. I do wish there was more than

one scene, there's no possible way you can fit all the stickers onto just one scene (and believe me, he tried!!). But it did keep him busy for at least 15 minutes, the stickers were sturdy enough to not tear when his little toddler fingers pulled them off and put them on, and it was fun. Definitely worth the money.

A very inexpensive sticker book for the little ones, however, it was much smaller than I anticipated and not sure how well it will work with little fingers/hands, if your child is older and better with working small things, then this sticker book will be too childish for them. The book was well made and the stickers nice looking, just way too small for little hands..

We have this book, as well as several others. For under \$2 they make great stockings stuffers, etc. They work well for car trips, doctor's appointments or times when you need to be able to grab little items to entertain a smaller child (toddler/preschooler, etc). You get the stickers and a background- it's not meant to be fancy. The dimensions are there... it's smaller, like a small greeting card. Not like they advertise it as a giant book.

I was excited to get this because my daughter loves stickers and reusable stickers. However, it's not worth a dollar to us. If there was enough room on the page to play with the stickers it would be great, but there just isn't enough room to play. Spend a little extra and get the Melissa and Doug reusable sticker sets instead!

This is a great activity sticker book for travel, small and easy to carry. We don't use ipads/iphones or videos for travel, as a parent I look for items and or products that travel well and can keep our son happy with combo or coloring books, reading books and sticker books.

total waste of money. the stickers do not stick down even once it is just a tiny amount of stickers which do not work, and that is basically it. I thought the backgrounds would make this special but it just is tiny and does not work. much better to simply buy packs of stickers and use paper the activity books in this series are better
