Hey, Let's Make A Band!: The Official 5SOS Book

Synopsis

Hi everyone, This book is pretty much our official story so far. It really does seem only like last week we played our first gig at the Annandale Hotel in Sydney. Since then we've been given the opportunity to turn into the people and musicians we wanted to be. The people who gave us the opportunity were the fans. So this book is like a thank-you. We want everyone to know the story of how four western Sydney teenagers picked up their instruments and dreamed of being one of the biggest bands in the world. There are also some embarrassing photos of us derping around and some facts that some of us didn't even know. So we hope you enjoy it! Love, cal, luke, ash, and mike x

HOLLY CRAPBALLS 5SOS LITERALLY ROCKED IT WITH THIS BOOK. ITS JUST SO... THEM. IT GENUINE, FUNNY, HAPPY, REAL, SO THEM. THATS WHO THEY ARE. THEYRE NOT FAKERS. THEYRE REAL AND THIS BOOK JUST PROVES EVERYTHING.

The book is awsome I love 5 seconds of summer. Will Smith would approve

Okay, so 5 Seconds of Summer is one of my favorite bands. They're really talented, and reading

about how they came to be was super interesting. Just thinking that they're four regular guys whose lives changed in minutes due to all their hard work is amazing. The book is written from the point of view of each band member, but it's not hard to follow at all. Though they're all telling the same story, they all have their own voice and perspective. This book is really a vital piece of reading for any fan of the band. It kind of helps you to appreciate what you have and it's really humbling. Seeing where the boys grew up and how they lived before the band, it's almost insane. They're just four down to earth people living an insanely cool life, and though they're not usually my type of band, I've totally become obsessed with them. Between their fun-loving easy going personalities and their relatable music, they're a band that it's not hard to love. When it comes to this book, I don't think the 5sos boys could've done any more justice to their personalities. This book is like a window into the mind of these four guys, and honestly it couldn't have been written any better. I would like for everyone ever to read this book, even if I have to read it to them myself. It's just such an important book. There was never a dull moment in this book, it was generally pretty good through and through.

My dad bought this book for me and I am so happy. It is so great and you can tell each of the boys wrote it themselves. There are so many things I've learned about the guys in this book. I absolutely love it so much. I recommend it to any 5sos fan. I still don't understand why it's in the children section. It makes me laugh just a little. Anyway, this is like the best thing ever.

This would a great addition for any fan of 5SOS. I've already read the book from cover to cover twice and can honestly say that because I'm fan I enjoyed learning some things I didn't know about 5SOS back story. The pictures in the book are also great too.

i absolutly love this book! not only did i learn some pretty cool facts about the band but i got to learn their individual backstories and how the band got started. anyone who is a fan of theirs needs to read this book. :D

I bought this book for my daughter (and ok a little bit for myself too) and I was really impressed. It is not a cheap, flimsy book. It is a high quality hard cover book with quality glossy paper. The stories and the photos are great. While it is geared towards "kids", it really is more for teens and not tweens as the boys can be teenage boys, and I mean that in a funny way. Thankfully they don't sanitize things too much, which would have taken away from how the guys are with their fans. I read the

whole book and I enjoyed it a lot, and of course my daughter did as well. I think that any 5SOS fan would enjoy this, so if you are a parent looking for a gift, this would be a great one, and it will also get your kid to read if that's an issue.

I admit, my rating is a bit biased. I'm a huge 5SOS fan. guilty as charged. but it really was good. I loved it. I owe these boys my life. they did save my life. I wouldn't be here, the person I am today, without them. anyone who tells me that's stupid, well, I'm glad you didn't have to struggle with anything like this. life sucks, and I'm glad it was good to you. it wasn't very good to me, and this band saved me. I fell in love with each of them more and more every word, and with them as a whole a lot more. so, perfect 5/5 is only fair for this book.
