It had some kinda tough sections! I bought this for my kindergartner who was starting first grade after the summer break and I definitely had to help her with the new topics: telling time, counting money, completing sentences with the correct tense for the word... So I guess it's more of something for kids actually in first grade but she was excited and eager to work on it each day. There were quite a few pages with a variety of topics.

I purchased this workbook for my 6 year old to complete during the summer while at daycare. He's

completed the book Already in three weeks. I would recommend for parents to use to keep their children reading and scholastic during the summer break.

Bought this for my son, so we can get some practice before school starts and he loves it. I like that the book has lots of gold star stickers and it motivates him to complete his work in order to get sticker. The actual material is very good (maybe a little to easy) but we just bought it for practice before school. Would recommend to all families !

We literally have all these books for our travels with the kids. They keep them entertained while on the road or on a plane and helps fill in the gaps when I can't bring along all their workbooks when traveling.

These are great books to get the kids thinking and keep them active while they are in summer break. My child is going into kindergarten and has done great with these. They are definitely age appropriate.

very good for kids heading to 1st grade! even has sticker star at the end to reward the child.

This is a good book for my Kindergarten son to give him a little challenge! Some of the work he already knows how to do, but a lot of it is fun and a little challenging. So, if there is a kid who is bored in K or needs a little help in first grade, this is a good book to have.

Very good practice book for my kinder kid during summer before 1st grade
