Everyday Life In Ancient Egypt (JR. Graphic Ancient Civilizations)

Synopsis

Most kids probably know a little about the pyramids of Egypt, but they may not know about the advanced people who designed and built them. This volume offers a behind the scenes look at what life was really like for the designers of the pyramids, the workers who built them, and the families at home who were running the households, attending schools, and worshipping in their religion. This volume takes readers beyond the text with fun facts and important research points.

Age Range: 8 - 11 years

Grade Level: 3 - 6

Customer Reviews

I think I was a little disappointed. It seemed a bit light on the history of Ancient Egypt. However, it may be great for my grandchild who is eleven. I'll just have to wait for his birthday and see if he actually uses it to help him with his Ancient Civilizations Studies. Sometimes it's hard to gauge what a 6th grader will wish to assimilate. I did learn some things I didn't know (it's been a while). After all being ancient ain't all its cracked up to be.
