Customer Reviews

My boys (5 and 9) love this book as much as the others in the series. The story lines are silly and fun, the art is bright and exciting. I highly recommend for reluctant readers. I noticed other reviews stating that the illustrator was different, but my kids didn't care. It is a little different, but still very well drawn.

My son was disappointed to see that a new illustrator was used in book #4. The drawings are all different than the first three books.

It made my grandson a great birthday gift.

My 7 year old loves these books!

My daughter loved it!!!!

you need to go here to buy the book. you will love it because it has different illustration than the other book. The game is good .
