Customer Reviews

The images in this calendar are very dull--especially dark images. (Which is a lot of images.) Hard to see any details. Pages are easy to tear off. Stand seems a little flimsy but works. Some dates include National holidays.Images are random, not in film sequence. (A plus for me.)

My wife loves these daily desk calendars.If you are into Harry Potter the only next best thing would be if this came with a real Timeturner.Otherwise this is great with photos from all eight movies.

My daughter loves HP and loves daily calendars - I thought this would be a great christmas gift. Turns out this is just a picture from the film each day - no additional information, no facts about the movie, nothing.

I get one of these every year and always really enjoy it. The pictures aren't always super exciting (or relevant to dates, which I think is sometimes odd), but it's still a fun reminder of the HP stories!

Cheap paoer, photographs look all old and scratched, for effect I suppose, dates at bottom in ugly

dull colors. Should be on glossy paper with beautiful photos, and a line as to which scene or movie it's from, most we kniw but some are not clear at all so who would know?

The stand on these calendars never lasts long, but the pictures are good.

A different scene from the films each day. I love this calendar!

This calendar is something magical to have on my desk...Brightens my work day. However, it is just the pictures. It would be a lot more enjoyable if it had a quote each day as well too.
