Age Range: 3 - 6 years

Grade Level: Preschool - 1

Customer Reviews

This seemed like a great book and a great idea, but had some problems and odd stickers/examples and a lot of it did not make sense. The stickers are in back of the book. It required much flipping back and forth so I cut the sticker pages out. The stickers were hard to get out, even for adults. The book is intended to help kids learn letters and identify them. But my 3 year old does not know what a "Toucan" is. One example for the letter "F" was "Friends". The sticker had a picture of several people on it. It wasn't clear to her, and it wasn't clear to me. I never would have known if it hadn't said "Friends" on it, but she can't read yet. "Frog" would have been better. The letter "U" had a kid under a table. "U" for "Under". The whole thing lost me at "Quiche". Really? Quiche? She is 3. "Queen" would have been a better choice. So in the end she had fun sticking the stickers by matching the shapes. Unless your child is familiar with words like Toucan, Quiche, and yacht, etc. This won't help. She thought they were bird, pizza, and boat. Which was understandable, but they did not match up with the letters. It was okay for having fun sticking stickers - once we were able to get them off - but that's about it. Not a lot of help with the alphabet.

I bought this for my 5-year-old son as an activity for a long flight. As soon as the book arrived I knew it wouldn't keep his attention for long. The sticker pages aren't perforated for tearing out of the book (which would be extremely handy). Instead, to get a sticker for page 5, for example, he had to flip to page 11, peel off the sticker, and then go back to page 5. It was too much back and forth for him and he lost interest after 2 stickers. Plus, the binding is very tight and the book doesn't stay open easily. If the book stayed open easily and the sticker pages were perforated for tearing out of the book, it would be a great sticker book.

My daughter just turned 3 and she's known her alphabet for a long time but now she is very interested in words and the letters they start with. She loves going down the list; A is for Apple, B is for Ball etc etc. This book is awesome because it gives examples for each letter. For each letter there is a list of words and illustrations and stickers. My daughter absolutely loves stickers so the stickers make this activity book that much more fun for her. It's a fun and educational activity book and the price is a great deal! I think this book would be best for 2-5 year olds.

My daughter is 2 and a half and very resistant to learning her letters from mommy. I have to be very creative to get her to do things without realizing she is actually learning something. This sticker book hit the mark completely! We did it for half an hour today and she really enjoyed herself! I wish I had found this earlier- I've been banging my head against a wall for quite awhile with this one. As to the other review- our stickers stuck on great with no problems, so I don't know if maybe that one was defective or something.

Love the concept, so did my 3 year old. BUT... the stickers don't stick very well! That doesn't fly with a 3 year old!

Great for teaching ABC to my toddler. Color book and 3-4 pages of stickers to use.

Its a good book to get your toddler to sit and get busy with. It was very difficult for us to get our 2 year old to just sit down for a couple of minutes instead of running around the house but this did the job. She would pick a sticker and try to search through the book to find where it should be placed. The pictures were mostly of real life images rather than drawings which made it easier for her to identify them and relate to them. It is very educational and helpful in teaching your child about the

alphabet. It is organized in a way you can easily go through each of the letters both for the sticker pages and the coloring pages. The book has exactly 109 stickers composed of 26 small letter alphabet, numbers from 1-8 and 75 random pictures representing the letters of the alphabet. Its easy to remove the stickers once they have been used (If just like me you'd like to fix it if your toddler was not able to stick it properly). The only con I would say that I found with this book is that some of the stickers get easily torn if our child tries to take it out on her own specially the big ones. If your done with the sticker activity there is also 12 pages of coloring pages that your toddler could enjoy.

There are not enough stars in the world to rate this concept!! LOVE, LOVE, LOVE this items and any like it!!! My son is 2 and this is a GREAT learning tool for us!!! And he has a blast with it!!! I can't say enough!!
