## Customer Reviews

If you have budding artists that LOVE dinosaurs, this is the book to buy! Paired with a child's art kit and a pad of art paper, this is the perfect gift. I bought this book for my nephews and they immediately began sketching. I work in a library and became acquainted with this book from customers who continually check it out and have even shown off their works of art. This book gets total "kid approval".

My son received a set of DRAW books as a gift when he was 8 and still uses them several times a month (he is now 12). We are fairly impressed with the results he is able to produce. The book takes the most simplistic approach to drawing, breaking the process down to three steps (basic shapes, detailing, "cleaning up"). Each image includes 4 - 10 illustrations and the corresponding instructions presented in an easy to understand format. The "Tips" section is worth reading as well. Highly recommended! You might also be interested in Draw Really Cool Stuff, which contains this book and 5 others.

My grandson is 6 & is an amazing little artist. Of course he's into dinosaur's, so it's a perfect match.

This is pretty good for the beginners to learn drawing. My son 8 years old who likes dinosaurs and likes drawing too. So I bought him this book. He can draw dinosaurs very well now.

How great can it be to draw animals that are now extinct? I can only imagine how real dinosaurs may have looked, but at least my imagination can go wild all it wants.

My grandson loved this book. Even I, who can barely draw a stick figure, am able to draw dinosaurs by following the instructions in this book.

absolutley great book. easy to follow steps. my 8 year old is.drawing like a pro!
