My son (6) LOVES this book!!! He reads it numerous times EVERY week. For literacy week, the students are encouraged to dress up as their favorite character from a book, he chose a leopard. The book is informative and he often quizzes me on questions I don't know the answer to, says the correct answer and shows me where the answer is located in the book. This book has turned him into an animal lover, which is great considering before he wanted to be Sonic. Now he's interested in wildlife books, movies, shows and toys.

Excellent value when purchased with additional qualifying books (buy 3, get 4th free)! The reading levels make selecting appropriate books effortless. (This is expecially true when reading is a challenge for children.) This series offers a wide variety of titles covering various topics, which are

presented in a captivating manner. My local stores carry only a few titles on each level, so ordering through allows me greater choices. I highly recommend this book and others in the series.

It was delivered faster than I anticipated. I love it and so does my daughter. She loved learning so many new things about the big cats. Suggest it for any young big cat lovers.

My Granddaughters favorite. The illustrations are beautiful.
