The Girls' Doodle Book

Synopsis

With a shiny foiled cover and 160 spectacular interior pages that feature engaging, full-color artwork, you're guaranteed hours and hours of enjoyment. Plus, every page is perforated for easy pullout to display YOUR piece of art. Fairies, princesses, ponies, and pop-stars will have every girl eager to be a daydream believer, inspired by prompts like "What's in the magic forest?" • "Draw your dream castle," and "Show us how girls rock!" • So get ready, get set, and doodle! As always, no drawing skills are required—just your imagination.

Age Range: 4 and up

Grade Level: Preschool and up

Customer Reviews

We have both the girls and the boys doodle book. Was an excellent choice for my kiddos and kept them busy for quite a while! My son loved it so much, that he took it to a camp and accidentally left it there. We had to have it shipped back, as it was so important to him! He was seven years old at the time. This would be great for car trips!

Absolutely love this doodle book! I bought it for a six year old girl, so she'll need some help reading the text on the pages, but in general its easy to understand what you should be drawing. This is so much better than a normal coloring book just having to fill in spaces... it actually sparks your creativity and imagination! Honestly if you are into art at all, this book is for all ages. Love the boys

version too

You will instantly fall in love with this book! It is so thick, so colorful and so imaginative! It has bright pages with part of a scene, such as a bird cage, but no bird inside. The instructions may say, draw the bird you would like to have and then decorate the cage for it. They draw directly in the book, and I greatly expect this to be a keepsake to enjoy looking at through the years as they grow up. I originally saw one at WalMart, which was more expensive than btw, and loved it, and my 9 yr old granddaughter has been asking for it ever since. I asked her again this morning, "How do you like your doodle book?" and she said emphatically, "I LOVE IT!!!!!! Thank you for getting it for me, Nanny!!!!!" she then went into a 20 minute dissertation about the scenes and how she plans to finish them.

Hi, Awesome finish the picture art. Good topics for pictures. Very creative/stimulating art. I would have loved this growing up. I will try to get one for many family tree children. This experience would be awesome for them to do. There is one for boys and other versions. Great fun! Happiness...

My 5 year old grand daughter loves this book. She was very jealous of her brother's "Boy's Doodle Book" so I surprised her with her own book. I like the fact that the books can be enjoyed by either gender. Few stereotypical subjects. Nicely done.

My grandchildren love these books. They are thoughtful and really fun. They cannot make a mistake and enjoy having a go to activity at anytime they want to use it. Hidden educational value as it uses the imagination based on the age of the child. I gave them to children five to seven years of age.

This is one of my favorite drawing books for kids. The Doodle Book for Boys and Girls is all about teaching kids to think creative while they practice drawing. For kids who like to draw and doodle this provides hours of entertainment. My kids love this book! Watch My Kids Review this book here:
