My 2nd grade twins learned about biographies at school and needed to do a book report using a bio. This book was the perfect length and level of detail for them to be able to read in one sitting, digest and pick out facts for their reports, and the subject matter was a huge hit when they presented their reports to their classes... pretty much every second grader is very familiar with Mo's work and a big fan! I was so happy to find this book, a great way for me to introduce bios and how to organize and write a nonfiction report with inherently interesting subject matter :)

My son loves Mo Willems, I mean he loovveesss MO Willems. It was always so difficult to find a book he wanted to read. I'm an avid reader and I didn't want to give up until I found something my son would love, too. I wanted him to experience what it's like to become immersed in a book. This book is a bio for young readers. It's a great way to introduce kids to bios and to nonfiction. Now if only Mo Willems would write a few chapter books! If he has and I haven't found them, please let me

know. My son would think it was awesome, which would, in turn, make me awesome.

Great read!

This is great for young readers! They loved learning all about their favorite author!

Perfect accompaniment to go with all the Pigeon books that my classes (and I) love.
