Zoo Animals Dot-to-Dot (Dover Little Activity Books)

Synopsis

Take a trip to the zoo and meet 46 fascinating animals in this entertaining and educational little activity book. Connect the dots and you'll find a tiger in its jungle habitat, an owl perched on a tree branch, and a panda munching on bamboo leaves. You'll also create images of a water buffalo, chimpanzee, sea turtle, peacock, koala, snake, and other animals of the wild.

Puzzles #657 inÂ Books > Children's Books > Activities, Crafts & Games > Activity Books

Age Range: 4 - 8 years

Grade Level: Kindergarten - 3

Customer Reviews

I bought this thinking it was a regular 8.5 x 11 size book. It is not. It is very small. This was my error because I did check the size on it. The pictures are pretty good & probably would be good for a travel option.

My 4-year old niece thinks this is close to the best just-because gift EVER. The small size makes it perfect for her to take with her and keeps her occupied in restaurants and other times patience is a necessity.

I purchased these for my kids Christmas stockings. They like doing the activities and the books are small so they are easy to take along in the car or places where we have to wait.

This is a good book, but is super small in size. The small size might be convenient, but I found that the dot to dots are fairly easy and my kids worked almost too quickly through the puzzles. The book is not standard paper size.

these are very petite books that have simple dot-to-dots in them. They are numbers up to 20-30 and the pictures are easily recognized by small children. These are fantastic for the 3-4 year old set, especially if they are just learning their numbers. The only downfall is that some numbers are placed so close together that you are not sure which dot goes with which number (however with these being such small pictures and the dots being so close, it does not effect the overall picture that much.) I keep several of these little Dover books in my purse for fast entertainment at Dr. Appointments and such.

Read the description carefully--this is a very small book. Its size and thick binding make it difficult to keep it open, so my 4-year-old has a lot of trouble actually using it. The size also means he has to be very careful about drawing the lines because the dots are close together. That's not a huge deal because it helps his dexterity, but it frustrates him and he doesn't really like this book. I keep it in my purse and tear pages out for him to do while in a restaurant and places like that.

I purchased this book from on line. The book was smaller than I expected it to be. I would recommend it for the kindergartener and older child as the print is small compared to the print normally used for the pre-schooler age child. I was impressed with the amount of animal illustrations shown in this book. I bought it with the older child in mind feeling that it was also of educational value. Audrey

The quality of the books is fine, however, and I must admit it's my own fault for not reading the description more carefully, the books are small 4" X 5 1/2 ish". I think it is more difficult for the little ones to write, especially the dot-to-dot books, on pages this small. I was expecting full sized books 8 X 11, so I was disappointed. I'm going to give them to my daughter for the grandchildren; will be a nice little surprise for them on a long car trip.
