Customer Reviews

My son is obsessed with concrete trucks because his dad drives one. Some of the descriptions of the concrete truck did not match how his dad's concrete truck works but he wants me to read this book every night at bedtime then he reads it to me.....even tho he cannot read he has almost memorized this book and he can tell you every part of a concrete truck

They will like this book. My 3 1/2 year old grandson like anything with wheels. We had a great time reading it and he really paid attention the whole way through. The pictures are very nice.

I bought this for my 3-year-old son, so I can't speak to the easy read part of it yet. But, there are lots of pictures, which he loves.

Great book for my truck loving grandson!

Good book
