Customer Reviews

My son (2.5) loves this book! He doesn't really care about story lines so this book is perfect for him. The tractor pictures are great and has lots of different tractor brands (Case, New Holland and John Deere) featured which is nice. It also shows some different implements used with tractors. Very impressed.

My 2yr old son loves this book. This book gives us a platform to talk about colors, shapes and types of tractors/equipment. Great book, nice size and sturdy.

Our two year old loves this book. We read it almost every day. It is a great way for them to learn to count, colors, opposites - all while looking at something that interests them. This is his favorite.

My son has loved this book since he was about 18 months old. He even sleeps with it! Highly recommended.

I got this for my son for Christmas. He loves looking at it. The pictures are colorful and keep his interest (for as long as can be expected for an 18 month old)

Have only had this about six months and my son has already almost wore it out. He reads it all the time and it's a great size for the car!

My two One and a half year olds LOVE this book, the pictures are great and colorful- it is a keeper!

My two year niece is in love with tractors and this book was the best birthday gift.
