Age Range: 6 and up

Grade Level: 1 and up

## **Customer Reviews**

Cut-Paper Play is an excellent collection of over 80 kid-approved construction paper creations for children ages 4 to 10. The projects are grouped by 3 different skill and difficulty levels. A variety of techniques is shown. All you need is different kinds of paper or cardboard, scissors, glue, sometimes yarn or a stapler. So the crafts are inexpensive, but very amazing. Two- and three-dimensional projects, mobiles and seasonal projects are shown. We got inspiration for many more paper projects for the future!

All that is needed are these three items, and you can make the cutest crafts! Because of the easy supply list, we use this book so much more often than other books that you might not have the needed supplies on hand for. This one we keep right in the kitchen and the children can make things whenever they like! we just got it for Christmas and have already made lots of the projects! and there is room to be creative - just using the ideas as examples and taking it from there.

This book provided hours of fun for my four-year-old. We were pleased that we always had simple household items and paper to complete the projects. This book can be used as a jumping off point to many other creative projects.

I'm glad an online friend recommended this book. My grandsons, ages 2 and 4, and I are having fun with it. The projects are rated for difficulty, so it's easy to choose the right one for each child. You won't need fancy supplies--mostly just scissors, glue, and construction paper. Enjoy!

This is my go-to book for Sunday school crafts! I LOVE the variety of techniques, easy illustrations and ample suggestions on how to vary each craft. This is perfect for people like me who enjoy a little crafting, but lack in the creativity department.

LOVE, LOVE, LOVE this book!!! If you have a kinder-aged kid, and you are at beginning level in terms of craft skills, and you don't have a mega selection of supplies, and you have a kid who loves to do arts & crafts, THIS BOOK IS FOR YOU!! I don't have a lot of craft supplies, and until 4 months ago, I didn't even know how a glue gun worked, but this book provided hours and hours of projects and fun for my kindergarten kid. As long as you have scissors, construction paper, and glue, you are pretty much good to go for most of the projects in this book.

I got a good number of well received children craft ideas from this book for 4th through 6th grade kids, which were the level 3 crafts. The level 1 & 2 crafts are too simple for this age range of kids, but should be fine for K through 3rd grade kids. I also got several other very good craft ideas from Ms. Henry's other book, "Kids Art Works."
