Customer Reviews

My son, who was six when we got this book, has folded every plane in it several times. The instructions are clear and don't really require reading, and he could build all the planes with almost no help from me. The stickers included in the middle are fun and really jazz up the planes. What a fun book! My son is such a paper airplane fanatic now, and I know we owe a lot of his interest to this book.

Clear easy to follow instructions with good variety of planes that make a great airshow.

Grandson loves it!!
